The Equipment must remain connected to the teamplay network for the Contract Duration. Failure to maintain such connection will result in increased fees in accordance with the terms and conditions below.

Includes:

Non-Siemens components and accessories (such as VCR, injector, laser printer, MR surface coils, tables/table tops, chiller, UPS, etc.) unless specifically identified in Exhibit A.

Notes:

The chilled water supply is an integral part of the MR Equipment covered by this Agreement and is critical for the proper operation of the Equipment and for minimizing the loss of cryogenics and preventing damage to the MR and its components. Servicing of the chiller by vendors contracted and certified by Siemens is the recommended path for reducing downtime, potential cryogen losses and damage to the MR and its components. Cryogenics lost on the associated MR Equipment and any other damages caused to the MR and any of its components due to issues with chillers not serviced by Siemens under a Siemens service contract or due to other excluded causes (e.g., interruption of power, force majeure occurrences, Customer misuse or negligence, etc.) are not covered under this Agreement and will be replaced and/or repaired at the Customer's sole cost and expense at the current negotiated rate for Siemens "Service By Request" (Time and Materials) customers.

Terms of payment: Net 30 days from invoice date. Past due payment is subject to 1.5% interest charge per month.
